In the visions of God brought he me into the land of Israel, and set me upon a very high mountain, by which [was] as the frame of a city on the south.

And be brought me thither, and, behold, [there was] a man, whose appearance [was] like the appearance of brass, with a line of flax in his hand, and a measuring reed; and he stood in the gate.

And the man said unto me, Son of man, behold with thine eyes, and hear with thine ears, and set thine heart upon all that I shall shew thee; for to the intent that I might shew them unto thee [art] thou brought hither: declare all that thou seest to the house of Israel.

And behold a wall on the outside of the house round about, and in the man's hand a measuring reed of six cubits [long] by the cubit and an hand breadth; so he measured the breadth of the building, one reed; and the height, one reed.

Then came he unto the gate which looketh toward the east, and went up the stairs thereof, and measured the threshold of the gate, [which was] one reed broad; and the other threshold [of the gate, which was] one reed broad.

And [every] little chamber [was] one reed long, and one reed broad; and between the little chambers [were] five cubits; and the threshold of the gate by the porch of the gate within...
and he measured also the porch of the gate within, one reed.

Then measured he the porch of the gate, eight cubits; and the posts thereof, two cubits; and the porch of the gate [was] inward.

And the little chambers of the gate eastward [were] three on this side, and three on that side; they three [were] of one measure: and the posts had one measure on this side and on that side.

And he measured the breadth of the entry of the gate, ten cubits; and the length of the gate, thirteen cubits.

The space also before the little chambers [was] one cubit [on this side], and the space [was] one cubit on that side: and the little chambers [were] six cubits on this side, and six cubits on that side.

He measured then the gate from the roof of [one] little chamber to the roof of another: the breadth [was] five and twenty cubits, door against door.

He made also posts of threescore cubits, even unto the post of the court round about the gate.

And from the face of the gate of the entrance unto the face of the porch of the inner gate [were] fifty cubits.

And [there were] narrow windows to the little chambers, and to their posts within the gate round about, and likewise to the arches: and windows [were] round about inward: and upon [each] post [were] palm trees.

Then brought he me into the outward court, and, lo, [there were] chambers, and
a pavement made for the court round about: thirty chambers [were] upon the pavement.

18 And the pavement by the side of the gates over against the length of the gates [was] the lower pavement.

19 Then he measured the breadth from the forefront of the lower gate unto the forefront of the inner court without, an hundred cubits eastward and northward.

20 And the gate of the outward court that looked toward the north, he measured the length thereof, and the breadth thereof.

21 And the little chambers thereof [were] three on this side and three on that side: and the posts thereof and the arches thereof were after the measure of the first gate: the length thereof [was] fifty cubits, and the breadth five and twenty cubits.

22 And their windows, and their arches, and their palm trees, [were] after the measure of the gate that looketh toward the east; and they went up unto it by seven steps; and the arches thereof [were] before them.

23 And the gate of the inner court [was] over against the gate toward the south, and beheld a gate toward the south: and he measured the posts thereof and the arches thereof according to these measures.
And he brought me into the inner court toward the south: and he measured from gate to gate toward the south an hundred cubits.

And he brought me to the inner court by the south gate: and he measured the south gate according to these measures;

And the little chambers thereof, and the posts thereof, and the arches thereof, according to these measures; and [there were] windows in it and in the arches thereof round about: [it was] fifty cubits long, and five and twenty cubits broad.

And the arches thereof [were] before like those windows: the windows in it and in the arches thereof round about: [it was] fifty cubits long, and five and twenty cubits broad.

And the arches thereof [were] seven steps to go up to it, and the arches thereof [were] before them: and it had palm trees, one on this side, and another on that side, upon the posts thereof.

And [there were] a gate in the inner court toward the south: and he measured from gate to gate toward the south an hundred cubits.

And he brought me to the inner court by the south gate: and he measured the south gate according to these measures;
And the little chambers thereof, and the posts thereof, and the arches thereof, were according to these measures: and there were windows therein and in the arches thereof round about: [it was] fifty cubits long, and five and twenty cubits broad.

And the arches thereof [were] toward the outward court; and palm trees [were] upon the posts thereof, on this side, and on that side: and the going up to it [had] eight steps.

And he brought me to the north gate, and measured [it] according to these measures;

The little chambers thereof, the posts thereof, and the arches thereof, and the windows to it round about: the length [was] fifty cubits, and the breadth five and twenty cubits.

And the posts thereof [were] toward the utter court; and palm trees [were] upon the posts thereof, on this side, and on that side: and the going up to it [had] eight steps.

And the chambers and the entries thereof [were] by the posts of the gates, where they washed the burnt offering.

And in the porch of the gate [were] two tables on this side, and two tables on that side, to slay thereon the burnt offering and the sin offering and the trespass offering.

And at the side without, as one goeth up to the entry of the north gate, [were]
The northward was two tables and to the shoulder the other which to-vaulted-portico-of square shlichutu in·them they-are-slaying

And the chamber whose prospect [is] toward the north, [is] for the priests, the keepers of the charge of the house.

Ezekiel 40

Two tables; and on the other side, which [was] at the porch of the gate, [were] two tables.

And the four tables [were] on this side, and four tables on that side, by the side of the gate; eight tables, whereupon they slew [their sacrifices].

And without the inner gate [were] the chambers of the singers in the inner court, which [was] at the side of the north gate; and their prospect [was] toward the south: one at the side of the east gate [having] the prospect toward the north.

And he said unto me, This chamber, whose prospect [is] toward the south, [is] for the priests, the keepers of the charge of the house.
And he brought me to the porch of the house, and measured [each] post of the porch, five cubits on this side, and five cubits on that side: and the breadth of the gate [was] three cubits on this side, and three cubits on that side.

The length of the porch [was] twenty cubits, and the breadth eleven cubits; and [he brought me] by the steps whereby they went up to it: and [there were] pillars by the posts, one on this side, and another on that side.
